FIRE

What to do?

1. Sound fire alarm and call fire department
2. Identify safe path
3. Select appropriate fire extinguisher
   *know when and how to use it!*
4. Use PASS technique
5. Back away

Evacuate immediately if...
- Extinguisher is empty and fire is not out
- Fire progresses beyond incipient stage

Class A: fires by materials that result in ash
Class B: flammable and combustible liquids
Class C: electrical wiring or equipment
Class D: metals
Class K: oils

DO NOT attempt to fight the fire if:
- you have not been trained on a fire extinguisher
- it is a large fire
